Skills

React, Redux, Ruby, Rails, Javascript, HTML, CSS, SQL

Projects

Stack Overflow (Rails, React, Redux, Ruby, Javascript, HTML5, CSS)   Live Site | Github

A full-stack single-page clone of Stack Overflow where users can ask, answer, and vote on questions.
- Utilized React Quill library for a fluid text editing experience.
- Established a seamless and secure user authentication process by utilizing Active Record, BCrypt, and React-Router Higher Order Components.
- Optimized use of backend database by adhering to SQL and Active Record best practices.

TypeTempo (Javascript, HTML5, CSS, Webpack)   Live Site | Github

A typing game that challenges how fast a user can type various text snippets.
- Deployed lightweight vanilla Javascript logic to create game logic such as WPM calculation.
- Employed Webpack and Babel to allow for a consistent experience across all browsers.
- Designed custom game layout and color scheme using CSS.

Deception (React, Redux, Javascript, MongoDB, Express, Node.js, HTML, CSS)   Live Site | Github

A online adaptation of the popular board game Deception: Murder In Hong Kong.
- Acted as an intermediary between frontend and backend in a team of four to ensure proper functionality between components.
- Built Deception with a team of four engineers in 5 days while learning a new stack.
- Utilized websockets to allow simultaneous play between multiple players on different browsers.

Experience

Levi's   *Sep 2018 – Jul 2019*

Sales Associate | New York, NY
- Provided exceptional customer service by answering any inquiries or helping guests meet their personal styling needs.
- Assisted trafic-heavy store in meeting planned sales goals that exceeds tens of thousands daily.
- Efficiently processed cash and credit payments for in-store purchases.
- Maintained a clean, stocked, and organized store.

MetLife   *Jul 2017 – Dec 2017*

Intern – Legal Affairs and Compliance | New York, NY
- Identified red flags and patterns associated with the laundering of illicit funds.
- Submitted information for regulatory filings of Suspicious Activity Reports (SAR).

- Maintained strong investigative expertise; the ability to work independently, and demonstrated extensive research skills.
- Created folders and action sheets for cases detailing people MetLife should not do business with.
- Reviewed and redacted over 1000+ pages of records that contained Personally Identifiable Information (PII) during a subpoena.
